INVESTIGATION:

On 04-28-99, the evidence that had been stored in the Jefferson County Sheriff's Office Explosives Magazine Evidence Locker was removed from that locker, the seal was intact at the time. This evidence was taken to the Jefferson County Sheriff's Office Evidence Vault for the purposes of photography and inventory.

At approximately 1530 hours, the following items were photographed using the environmental crimes unit Pentax PZ-10 camera and either a 100 mm. fixed focal length lens or a 35 to 80 mm zoom type lens.

INVESTIGATION:

On 04-20-99, at about 1120 hours, while returning from a meeting in Aurora, I monitored a radio call from officers at Columbine High School, 6201 South Pierce Street, saying that they were exchanging gunfire with suspects inside the school and that explosives had been used. I immediately went en route to Columbine High School, and arrived on scene at Columbine High School at approximately 1140 hours. I checked with Lt. Dave Walcher and Sgt. Phil Hy, who were acting as Incident Commanders and set up a staging area for the incoming bomb squads in the east parking lot of Clement Park. Members of bomb squads from the City of Denver, Arapahoe County and Jefferson County arrived at that time or shortly thereafter. A
decision was made to hold the Boulder County Bomb Squad and the Douglas County Bomb Squad in reserve for use at a later time or to be utilized on other calls within the metropolitan area.

At approximately 1215 hours, a request was made for bomb technician to respond to the 8000 block of South Wadsworth. This assignment was given to members of the Arapahoe County Sheriff’s Office Bomb Squad. Sgt. Scott Linne, Deputy Jeff Britegam and Deputy Wayne Belohlavy responded to that address. Once on scene, they met with firefighters of the West Metro Fire Protection District, and determined that a bomb had exploded. Some evidence was collected by Sgt. Linne. Sgt. Linne returned to Clement Park with remnants and clock parts from the bomb that had exploded. The Crime scene was left with Belohlavy and Al Blank. Evidence custodians from Jefferson County Sheriff’s Office later responded to photograph and process the crime scene. (See reports by Bill Maron, West Metro Fire Protection District.)

At some time between 1225 and 1235 hours, Dave Hayley and Ed Hertzing were asked to check three backpacks in the area of the Comand Post for any improvised explosive devices (I.E.D) During the same period of time, Rich Eucler and Scott Linne were asked to respond to [Redacted Address], which is the residence of suspect Eric Harris) to assist in the processing of a search warrant on that house. Because an explosive atmosphere was found in the garage of that house, I responded to assist Sgt. Eucler, checking the house for I.E.D.s, as well as to clear the flammable atmosphere prior to the search warrant being served. During the time I was in the house, I observed several items of interest. There were two black two gallon AMF “Lane Conditioner” jugs in the garage. These jugs were consistent with the type that were found earlier in the 8000 Block of South Wadsworth and associated with the explosion and fire. I also observed a video camera on the family floor. This camera was left in place and mentioned to Investigators for the search warrant. While I was in Eric Harris’ room, I found two CO2 devices on the desk. These devices consisted of [Redacted] cases with [Redacted] inside and attached to small plastic bags of [Redacted]. These devices were in plain view and were taken at that time in order to remove them as a hazard from the house. After checking the rest of the house, the garage door was opened to vent the house. Sgt. Eucler and I continued to monitor the air for any indication of an explosive atmosphere. After determining that the explosive atmosphere was no longer in the house and would pose no threat to investigators, the house was left as a crime scene. The house was left being protected by police officers from the Edgewater Police Department. I then returned to the school, where the bomb squads were being staged on the west side of the school between the west entrance and the ballfields.
Bomb Technicians Dave Hayley, Mike Guerra, Joe Dempsey, and Bill Chew made an initial bomb sweep of the school. After the initial sweep, it was determined approximately how many devices were seen, their location and what measurable steps would have to be taken in order to render these devices safe.

Bomb Technicians Alex Wood and Archie Singleton then entered the southwest doors of the school and began to render safe both pipe bombs and CO2 cartridge bombs by using proper technique and wearing the proper personal protected equipment. Upon initial entry into the school, a one-pound Coleman fuel tank bomb and eight CO2 cartridge bombs were found, collected and placed into the “frag bag” (See reports by Technicians Wood and Singleton.)

Bomb Technicians Rick Young and Rich Euchler then entered the library to determine types and quantities of devices, and to provide an overview of the situation in the library. This was done by using a digital camera to photograph parts of the 1-way, interior of the school and the library. This digital disk information was turned over to James Jennings and Chris Andrist of the Jefferson County Sheriff’s Office Evidence Collection Team, to be processed and filed into evidence. (See reports by Young and Euchler)

JC-001-007811

After review of the information obtained from Young and Euchler, Technician Mike Guerra and Technician Scott Linne entered into the library to check for improvised explosive devices on the suspects’ bodies in the hall and in the science wing of the school. Technician Guerra and Technician Linne collected one pipe bomb and seven CO2s out of the B.D.U. (battle dress uniform) pants worn by suspect Klebold. Five CO2 cartridge bombs were found in the left pants pocket of suspect Harris’ BDUs. Additionally, five CO2s were found on the floor near Klebold’s body, two more CO2s were found in the library, one on a table, one on a chair. The pipe bomb and the CO2 cartridge bombs were added to the “frag bag” and placed into the Denver Police Department bomb trailer. A second bomb sweep of the upper portion of the school and of the library was then done by Technicians Glenn Grove, Bill Chew, Joe Tennant, Greg Sexton, Jeff Britsegam, and Dan Davis. The sweep was done to determine if there were any additional live I.E.D.s (with the exception of any more that would be found on the bodies of Klebold and Harris, which had not been moved at this time). Any additional I.E.D.s that were collected were placed into the bomb trailer to be transported at a later time to the range to be rendered safe. There was a Molotov cocktail type incendiary
device that had broken, but not exploded on the floor area of Science Room #1. This was removed and placed in the Arapahoe County Bomb Squad’s trailer. A sweep was done in the lower portions of the school, primarily in the cafeteria, where an unexploded pipe bomb was found in a black nylon bag sitting on a table in the cafeteria.

A second sweep of the parking lot was done to check for any type of I.E.D.s that would have been in or around the cars. A clock device was found in a black BMW, later identified as the vehicle belonging to Dylan Klebold. A second timed device was also found in the car belonging to Eric Harris. Due to the higher risk associated with the time devices found in the vehicles, the bomb squad changed its primary focus and moved to work on those devices that were found in the cars. This was done at approximately 1900 hours. After an evacuation of the houses along the south parking lot was completed, rendersafe procedures were used to remove the pipe bombs from the BMW and from the Honda. These pipe bombs were also placed into the Denver Bomb Squad’s trailer for removal to the Jefferson County Sheriff’s Office Explosive Range.

Prior to recovery of the explosives and incendiary devices from the vehicles, I responded back to Eric Harris’ house at 8276 South Reed Street, at the request of the investigators on the search warrant. Investigators had found a tool box containing possible bomb building materials and they expressed some concern as to whether or not it may have been a booby trap. This box was checked by me. In that box, I found a clock face, wires, batteries and other bomb making devices that had not yet been connected to any explosive materials. These items were collected and booked into evidence. I then returned to the school.

Items taken out of the cars were as follows: From the black BMW: a black nylon bag containing seven pipe bombs, one Molotov cocktail, and four propane and CO2 type devices. There were two incendiary or Molotov cocktails found in the front seat. In the trunk and in the passenger compartment of the car were two twenty-pound propane tanks, two five-gallon gas cans full of a liquid, two two and a half gallon gas cans full of a liquid, and two one-gallon gas cans full of a liquid.

In the vehicle belonging to Eric Harris, the following items were recovered: Two twenty-pound “Blue Rhino” propane tanks, two red plastic five-gallon gas cans full of an unknown liquid, two black “AMF lane conditioner” plastic jugs with liquid, three two and a half gallon red plastic gas cans with an unknown liquid, three two-gallon gas cans with an unknown liquid, one one-gallon degreaser jug with an unknown liquid, a pint size “Clorox” bottle with an unknown liquid, and three homemade or simulated weapons. In the glove box of Harris’ car, there was a CO2 powered BB gun pistol. (See Officers’ reports for
additional information.)

During the render safe operations, there was an unintentional explosion of a pipe bomb. This explosion was contained within the bomb trailer and initiated some other small devices. (See Sergeant Dempsey's report.)

Due to the late hour, all explosive devices that had been recovered from the school were placed into the Denver Police Department Bomb Squad's trailer to be stored overnight inside the security of the perimeter at the school. This was done to maintain chain of custody, as well as provide safety for the public and for the officers at the time. These devices were to be transported to the Jefferson County Sheriffs Office Explosives Range the following morning for render safe procedures to take place.

After the devices were removed from the school, the school was released back to the Incident Command Post for a second WAT sweep of the school. This was done by SWAT members and bomb technicians. No additional I.E.D.s were found at this time.

On Wednesday, 04-21-99, Bomb Squad members returned to Columbine High School at approximately 0930 hours. After a short briefing, it was determined that the Bomb Squad would be broken into three groups. One group to continue the search of the school, one group to perform render safe procedures at the range, and one group to respond to calls and to assist with search warrants at Harris and Klebold home. Prior to breaking up into the three groups, an additional search was done of the school perimeter as well as the roof of the school, checking for any kind of booby traps or I.E.D.s that may have been missed on the day prior. On the roof of the school, there was evidence of a pipe bomb that had exploded as well as evidence from a Molotov cocktail that had exploded. This evidence was collected by Bomb Technician Guerra.

Bomb Technicians Mark Gutke, Dale Foley, Mike Guerra, Dan Davis, Rich Euchler, Wayne Belohlavy, Steve Thone, Brian Hart, and Joe Hanlin remained at the school and began checking backpacks in the cafeteria and library for any kind of explosive devices. (See their supplemental reports for additional information.) Bomb Technicians Joe Dempsey, Scott Linne, Archie Singleton and Greg Sexton responded to regarding a search warrant. The remainder of the bomb technicians
responded to the Jefferson County Sheriff's Office Explosives Range and performed render safe and evidence collection procedures on the CO2 bombs and pipe bombs.

At approximately 1330 hours, the group that had gone to the address, responded to the Jefferson County Sheriff's Office Explosives Range in order to render safe on two additional pipe bombs and some additional CO2 cartridge bombs. This render safe procedure lasted until approximately 1300 hours.

On 04-22-99, Bomb Technicians Glenn Grove, Mike Guerra, Rich Euchler, Joe Dempsey, Scott Linne, Dan Davis, Jeff Britegan, Greg Sexton and Mark Gutke responded to Columbine High School to continue to check backpacks and lockers for any kind of I.E.D.s.

At approximately 0945 hours, an additional device was found in a blue nylon duffle bag in the cafeteria. This device matched was similar to one that had been found earlier in the cafeteria as it continued a twenty-pound propane cylinder, one-gallon can of gasoline, a one-gallon jug of water, a clock timing device, a pipe bomb, some miscellaneous fireworks and Estes model rocket engines. All of these items were covered with miscellaneous clothing, such as T-shirts, underwear, socks, etc. After clearing evidence custodians from the cafeteria, this device was rendered safe using approved techniques and equipment by me prior to any additional evidence collection. Digital photographs were taken and this information was also submitted to evidence.

After this device was found, all backpacks in the cafeteria, library, stage area and all classrooms were hand checked by bomb technicians. Backpacks were cleared and marked using one inch vinyl colored tape and left in place for evidence collection. Additional backpacks, student lockers, storage rooms, storage lockers, desks, classrooms and office portions of the school were checked by a bomb technician for the remainder of the day.

On Friday, 04-23-99, the Arapahoe and Denver Bomb Squads were not requested at the school due to a scheduled visit by the Vice President of the United States on Sunday, 04-25-99, as their services would be needed for that visit. The Jefferson County Sheriff's Office bomb Squad continued to check lockers and backpacks throughout the school for the remainder of Friday, 04-
23-99. It was also on Friday, 04-23-99, that I met with officers from outside agencies to give them a briefing and information on the Columbine bomb squad operations to date.

On Saturday, 04-24-99, I met with agents Matt Traver and Ken Coffey of the Bureau of Alcohol, Tobacco and Firearms at the Jefferson County Sheriff's Office explosive magazine to inventory bomb related evidence. When this inventory was done the explosive magazine was sealed and initialed as sealed by me. The seals were checked by me prior to entrance of the magazine each and every time that it was opened. The magazine was then resealed. The explosive magazine was sealed as follows: 04-23-99, 1745 hours, 04-24-99, 1400 hours, 04-28-99, 1450 hours, 04-29-99, 1328 hours, 05-01-99, 1230 hours, 05-03-99, 1700 hours, and 05-05-99, 1340 hours. The only access to the magazine was by me with the agents from the Bureau of Alcohol, Tobacco and Firearms. This was for chain of custody and as evidence preservation. During these times there was no indication that seals had been broken or that evidence had been tampered with.

On Monday, 04-26-99, the Bomb Squads finished searching classrooms in the school and continued to search lockers. This locker search continued through Tuesday, 04-27-99, at which time they were declared to be clear as every locker and every backpack located in the school had been checked by bomb technicians.

**ADDITIONAL INFORMATION:** During the time that the I.E.D.s were rendered safe at the Explosives Range, representatives of the Pleasantview Fire Department, Golden Fire Department, and American Medical Response Ambulance crews stood by to respond in the event of an accident, fire, or injury. Their services were not needed. (See attached trip sheet for additional information.)

**DISPOSITION:** Open.
SUMMARY OF THE BOMB SQUAD RESPONSE TO THE COLUMBINE HIGH SCHOOL SHOOTING AND BOMBING INCIDENT THAT OCCURRED ON 04-20-99

On 04-20-99, at approximately 11:25 hours, a Metro-wide all call was placed by the Jefferson County Sheriff's Office in response to a call of shots fire, officer involved, at a high school where bombs or hand grenades had exploded. By approximately 11:55 hours, bomb technicians from the Jefferson County, Arapahoe County, Denver City and County, A.T F and F.B.I. bomb squads responded to Columbine High School and staged in the east parking of Clement Park. At about 12:15 hours, a report had been made of a fire in the 8000 block of South Wadsworth Blvd. It was determined that this fire had been caused by a detonation and that two suspicious backpacks had been seen prior to the detonation that caused the fire. Bomb technicians from Arapahoe County responded to this area, positively determined that the backpacks were involved with the detonation, and were the cause of this fire. It was determined that these were diversionary devices associated with the incident at Columbine High School.

From approximately 12:00 hours to approximately 15:00 hours, the bomb squads stood by at the request of the incident command while a sweep was done of the school by multiple agency SWAT teams. During this time, bomb technicians did some peripheral checking of backpacks and vehicles in the parking lots adjacent to the school perimeter. Bomb technicians responded to one of the suspect’s home at [redacted] at the time of an execution of a search warrant, regarding a possible explosive atmosphere that was in that house.

At approximately 16:30 hours, the bomb squad was authorized to move from the staging area in Clement Park to the west side of Columbine High School to begin doing bomb search and render safe procedures. Beginning with an initial sweep of the school, it was determined that the highest priority would be given to the library, second priority given to the cafeteria and additional areas checked as time allowed. This was done until two devices were found in suspects’ vehicles that still had clocks or other timing devices attached to them. As a result of these timing devices, priority was changed, listing the vehicles with the known timing devices as priority #1. Bomb technicians in bomb suits, or using a remotely controlled robot owned by the Jefferson County Sheriff's Office, removed improvised explosive devices or IEDs from two vehicles in the parking lot at the
school. These vehicles belong to the now deceased suspects. In addition to the timed I.E.D.s, the vehicles each contained two twenty-pound cylinders, multiple five, two and a half, two, and one gallon gas containers filled with a gasoline and unknown substance. There were other pipe bombs, CO2 bombs or Molotov cocktail type incendiary devices. In Harris' car, there was a BB gun type pistol and several other simulated weapons that had been used in making of a video production for a school project. Two other additional vehicles were entered, as they were associated with the suspects, with friends of the suspects or contained what may have been some type of suspicious package. This entry was done remotely and forcibly. No other I.E.D.s were found in any other cars. After the vehicles had been deemed safe, they were released to evidence collection units of the Sheriff's Office. The priority then became the library once again. The bomb squad then entered the library, collected I.E.D.s from the floor, a chair, a table, corridors and off of the bodies of the suspects where it could be done without moving them. After the library had been deemed to be clear of I.E.D.s, (with the exception of the suspects bodies).

The next priority became the cafeteria. In the cafeteria, several pipe bombs were found as well as two large incendiary devices contained in nylon bags: one that had partially function, one that had failed to function. These devices each contained one twenty-pound propane cylinder, one one-gallon, one one-gallon, a clock timing device, a pipe bomb, miscellaneous fireworks, model rocket engines and clothing used as coverings and stuffing. I.E.D.s were found at each of the suspects' house. At (Eric Harris's house) two CO2 cartridge type bombs that were attached to a containing had been taped closed. In Dylan Klebold's house at , two large pipe bombs as well as other pipe bomb making materials were found at that house. There were also several containers of fireworks. The I.E.D.s that had been taken from the school, the parking lot, or in the suspects' homes, were collected and transported to the Jefferson County Sheriff's Office Explosives Range for inventory and render safe, or detonation. The gasoline containers with the unknown fluid were also transported to the Sheriff's Office Explosives Range. Liquid samples were taken by the Bureau of Alcohol, Tobacco and Firearms for testing. This evidence was inventoried, collected and packaged for release to the B.A.T.F.

**JC-001-007817**

In all, it was determined that there were approximately 89 I.E.D.s manufactured by the two suspects. These devices were as follows: 21 pipe bombs recovered and rendered safe. 14 pipe bombs functioned as designed in or around the school. 37 CO2 cartridge bombs collected and rendered safe. 8 CO2 cartridge bombs functioned as designed in or around the school. 7
incendiary devices collected and rendered safe. 2 incendiary devices functioned as designed. Specific locations were as follows: 2 CO2 cartridges, 4 CO2 cartridges, two pipe bombs. School library, 15 CO2 cartridges, one pipe bomb, one incendiary. Outside of the school, one CO2 cartridge, two pipe bombs. From Dylan Klebold’s BMW, 4 CO2 cartridges, 8 pipe bombs. 3 incendiary devices. From Eric Harris’ Honda, one pipe bomb. From the body of suspect Harris, on a second sweep. 4 CO2 cartridges. On the body of suspect Klebold on a second sweep, 5 CO2 cartridges. On the roof of the school, one pipe bomb, one incendiary device. In the cafeteria, 3 pipe bombs, one CO2 cartridge and six gallons of flammable liquid. From 8000 South Wadsworth, the diversionary devices. 2 pipe bombs and flammable liquid.

Personnel involved from the bomb squad standpoint were approximately 33 people from six agencies including Jefferson County Sheriff’s Office, Arapahoe County Sheriff’s Office, Douglas County Sheriff’s Office, The City and County of Denver Police Department, Boulder County Sheriff’s Office Bomb Squad, Denver International Airport K-9 handlers, Bureau of Alcohol, Tobacco and Firearms and the Federal Bureau of Investigation. There were 18 certified bomb technicians, the remainder being bomb-dog handlers, explosive recognition experts or evidence collection personnel from FBI and B.A.T.F.

Prior to determining that the school was clear, every room, every floor, every level of the school was checked by bomb technicians. An excess of 1800 student school lockers and 700 backpacks were checked for I.E.D.s or evidence of any type of explosive device. This process took approximately seven days from the time the incident began until the school was deemed to be completely clear, thus allowing unrestricted access into the school by law enforcement personnel. There were approximately 357 pieces of explosive evidence identified and collected. The bulk of this evidence was packaged and released to the Bureau of Alcohol, Tobacco, and Firearms for additional testing and reconstruction as required. During the collection handling of this evidence, there was one accidental discharge of an I.E.D. that took place within the confines of an explosive handling trailer. There were no injuries and no fatalities as a result of any evidence collection or processing of the crime scene by the bomb squads.

JC-001-007818
INVESTIGATION:

On 04-20-99, at 1130 hours, I was dispatched to Columbine High School on a report of shots fired and explosions heard.

At 1140 hours, I arrived on scene, checked in with the command post and went to the staging area.

At 1215 hours, I received information from the command post that a surveying team near the intersection of Wadsworth and Coal Mine Avenue had encountered a backpack, moved the backpack so it was out of their way. A short time later the backpack exploded and started a small grass fire. West Metro Fire Rescue was dispatched to extinguish the fire. I sent Arapahoe County Sheriff's Office Bomb Technicians Scott Linne and Jeff Brittigam to the location to investigate. Upon arrival at the scene, the team reported back to me that they located two propane cans, approximately 16.4 ounces each, miscellaneous black cat fireworks, a can of Right Guard and an unknown aerosol can. They confirmed that the surveying team moved the backpack and then a short time later it exploded. They also reported that they recovered a pipe bomb, approximately 1½ inches in diameter by six inches long some flammable liquids and some sort of delay switch, which they believed to be remnants of a clock.

At 1430 hours, we received information that they were going to execute a search warrant and requested two bomb technicians. I sent Rich Euchler and another member of the Arapahoe County Bomb Squad to support the search warrant.

At 1500 hours, I was present during an interview of witness Christopher Morris. Christopher Morris relayed information about the type of devices the suspects had been working on. Morris said that the devices he had seen were CO2 cartridges with powder from fireworks inside and hobby fuses. He had also seen a pipe bomb about two inches in diameter and about six inches long metal with shrapnel taped to the outside. Morris continued to say that the suspects had been known to make explosives and use trip wires. I asked Morris to describe the type of trip wire they used. Morris stated they used a string attached to match heads He also stated that he remembered them mentioning they were experimenting with some sort of Napalm. They were collecting Styrofoam, gas, wax, and modeling putty and mixing all the ingredients together. Morris states that he believes this information came from the Anarchist Cookbook.

JC-001-007820
At 1700 hours, the combined bomb squads of Denver PD, Jefferson, and Arapahoe Counties moved to the west side of the building where we set up our equipment.

At 1700 hours, we began our initial survey of Columbine High School, starting with the west entrance. Near the west entrance we noticed a one pound propane bottle with a CO2 cartridge taped to the outside of it. Once we entered the first set of doors, we encountered a black plastic card file box, which contained... We moved down to the main hallway to the library entrance. We entered the library and began searching for explosives. On a library desk toward the front of the library, we encountered one CO2 cartridge near the two suspects' bodies. We also identified an area where a Molotov cocktail was detonated and located another CO2 cartridge on a chair in the same area. At this time, we could see... exposed in suspect Klebold's left pants cargo pocket. At this time, we began removing the unexploded cartridges, one at a time. We removed seven CO2 cartridges and one small pipe bomb. Next, we moved to suspect Harris's body on the floor near his feet, were five unexploded CO2 cartridges. Suspect Harris's right cargo pocket was buttoned. At this time I cut along the top edge of the pocket. Once I did that, I could see in his pocket, and removed four more CO2 cartridges from his right cargo pocket. The... and all the devices were placed into a blast bag. We then exited the library.

At approximately 1900 hours, my next assignment was a late model Honda. A device with a clock timer pipe bomb and a propane tank was identified inside the vehicle. A shot was made on the device, attempting to disrupt it failed. At this time, myself and Arapahoe County Bomb Technician placed on protective clothing and moved to the target, I could see a clock timer and a two-inch pipe bomb laying next to a propane tank. We attempted to disrupt the device. Our initial attempt failed. At this time, we went back down on target with a gripping device and rigging equipment. I attached the gripping device to the pipe bomb. We used the rigging equipment to remove the pipe bomb from the back seat. At this time, we went back to the Honda and began removing the items from the Honda. From the back seat of the Honda, we removed two gas cans, a pipe bomb and a propane tank approximately 20 to 25 pounds. Next we rigged the Honda for remote opening of the trunk. We opened the trunk of the Honda and from the trunk area of the Honda we removed two large black containers that were labeled “lane conditioner” and we believed them to be full of gasoline, two five-gallon gas cans, two two-gallon gas cans and two-one gallon gas cans. Next we removed a
white plastic gallon jug which was labeled kitchen degreaser, which we believed to contain a home made Napalm type substance. We removed a one pint bottle of Clorox and a metal can of charcoal lighter.

**DISPOSITION:** Open.
INVESTIGATION:
On 04-21-99, I reported to the Command Post at Columbine High School, and then signed into the building.

At approximately 1000 hours, I entered the cafeteria with Investigator Grove and a team of Crime Scene Technicians, and began an overall search of the cafeteria. At one point during the search one of the members of the Crime Scene Team pointed out a black backpack with some white lettering on it. I opened the backpack and discovered a one gallon can of Coleman fuel. Approximately two feet away from that backpack was a large blue duffle bag. I approached the duffle bag and placed my hand on the duffle bag. I noticed the bag was solid and had the shape of a propane cylinder. At this time, we advised the Crime Scene Team to move back. Using my pocket knife, I cut the bag from top to bottom about five inches from the end of the bag and in doing so, I exposed a pipe with a fuse and a clock timer. At this time, we had the Crime Scene Team evacuate the building and notify the other investigators in the building. Investigator Grove then brought in Bomb Squad equipment and rendered the device safe. For the remainder of the afternoon, I spent clearing individual backpacks out of the cafeteria.

At 2300 hours, I was contacted by the Command Post and was advised to proceed to the Library and meet with a representative from the Coroner’s Office. Upon arrival at the Library, I was informed by the Coroner’s Office that they would like me to stand by while they removed the two suspect bodies. We began removing personal articles from suspect Klebold, and at this time, the Coroner began to roll suspect Klebold exposing right pants cargo pocket, which had not been searched due to the position of his body. I cut open the pocket and exposed an additional 8 [redacted] I placed tape on top of the [redacted] in a vermiculite casing. After suspect Klebold’s body was removed, we then went to suspect Harris’ body. Suspect Harris’ body was rolled exposing the left pants cargo pocket. I cut open the pan pocket and removed [redacted] and secured those four in the vermiculite case. I then took the case out and secured it in a Bomb Squad vehicle.

DISPOSITION: Open.

JC-001-007823
ADDITIONAL WITNESSES:
Agent Craig Chillcott, ATF
Canine: Cascade

Agent Debra Dashler, ATF
Canine: Jenny

INVESTIGATION:
On 4-22-99 at 1000 hours, with the assistance of ATF Agent Chillcott and ATF Agent Dashler, and Canines Cascade and Jenny we began a systematic search of Columbine High School. We were directed to start with key lockers. We searched locker #837, which belonged to suspect Klebold, locker #624, which belonged to suspect Harris, and locker #45, which belonged to [redacted]. Additionally, we received a list of lockers that required special attention, and we began searching. We searched lockers of the following people:

We continued searching the remaining lockers until approximately 1800 hours.

On 4-23-99 at 0800 hours I reported to the Command Post. I was dispatched to Southwest Plaza reference a suspicious package I met with mall security. They directed me to a locker with a large black bag in it. I examined the bag and there were no explosives contained in it.

At this time, I returned to the Command Post and then entered Columbine High School and responded to the lunch room area. At this time, we searched and removed every backpack from the lunchroom area. This activity continued until 1900 hours.

On 4-26, 27, 28, and 29, 1999, we continued searching Columbine High School until every locker and every backpack had been individually searched and flagged by a member of the bomb squad. We concluded our search on 4-29-99 at approximately 1300 hours.

DISPOSITION: Open
LITTLETON FIRE
June 22, 1999

Chief Bill Pessemier
Littleton Fire Department
2255 West Berry Avenue
Littleton, Colorado 80165

Dear Chief Pessemier,

We are requesting that all Littleton Fire Department incident reports relating to the fire/emergency medical services response to the April 20, 1999 attack on Columbine High School be provided to the Jefferson County Sheriff’s Office.

To the extent that these documents include medical records from medical providers with your agency, the records would ordinarily be exempted from disclosure as public records because they are specifically protected by C.R.S. 24-72-204 (3) (a) (l). Also, because your fire department is authorized to detect and investigate crimes, the records at issue may qualify as criminal justice agency records which the custodian may deny access to at his discretion, as provided in C.R.S. 24-72-304 and 305.

Furthermore, we emphasize the importance of keeping information confidential during our ongoing criminal investigation into the events at Columbine. The ability to conduct witness interviews, for example, is enhanced when the witnesses’ recollections have not been influenced by reports from other sources. Premature public release of reports and resulting speculation based on incomplete information may compromise case details currently known only to possible suspects and the case investigators.

Your cooperation in this matter is very much appreciated. If you have any questions or if the Sheriff’s Office can otherwise be of assistance to you, please feel free to phone me at 303-271-5612.

Sincerely,

JOHN P. STONE, SHERIFF

List of Move Ups

11:42 Move ups initiated by Control One, Littleton S16 to Littleton Station 11.
   C10 requesting callout of all staff.
12:04 South Metro R32 moved to Littleton Station 12.
12:24 South Metro Chief Rinne enroute to communication center to assist with resources.
12:30 Louviers Fire E121 moving to Littleton Station 16.
12:31 South Metro Q34 moved to Littleton Station 11.
   Littleton E17 moved to Littleton District 11.
12:34 Air Life advises there are two additional helicopters available, with ETA's of 15 and 45 minutes.
12:37 South Metro R36 moved to South Metro Station 32.
12:40 South Metro R37 moved to Littleton Station 17.
12:43 South Metro R32 moved to Littleton Station 11.
12:50 South Metro Q32 moved to Littleton Station 17.
12:52 Englewood Fire Sq23 moving to Littleton Station 12.
12:53 Castle Rock Fire R151 moved to Station 36.
13:09 South Metro R37 Moving to Littleton Station 15.
13:11 Littleton E17 in Littleton District 13, as ALS unit.
13:18 Parker Fire R72 moved to South Metro Station 34.
13:22 Due to incident all units will be on a modified response until further notice.
13:23 South Metro R34 moved to South Metro Station 32.
13:31 South Metro R39 moved to Littleton Station 15.
13:33 Littleton Brush 18 in service with personnel called back to duty, BLS unit only.
13:34 South Metro R39 Moving to Station 32.
13:35 Castle Rock Fire R151 moved to South Metro Station 32.
13:54 Castle Rock Fire Q151 moved to South Metro Station 39
13:55 South Metro R37 moving to Littleton Station 11.
14:00 South Metro R32 moving to Littleton Station 13.
14:04 Littleton E14 moved to Littleton Station 12.
14:12 Littleton Reserve Rescue unit 324 in-service as R17 with personnel called back to duty.
14:19 Littleton R18 and E17 moving to Littleton Station 13, units will respond as one due to staffing.
14:20 Littleton E14 moved to Littleton Station 13.
14:45 Littleton R17 moved to Littleton Station 11.
15:07 South Metro E31 moved to South Metro Station 32.
15:11 Parker Fire E74 moved to Littleton Station 17.
15:21 Castle Rock Fire R151 and South Metro R34 moved to South Metro Station 37.
15:32 South Metro R34 moved to Littleton Station 11.
16:00 Parker Fire R75 moved to South Metro Station 32.
16:45 South Metro Q32 moved to Littleton Station 12.
16:55 South Metro R39 moved to South Metro Station 35.
17:30 Littleton E17 moved to Littleton Station 11.
17:45 Littleton E17 returning to District 17, being relieved to go home.

COLUMBINE HIGH SCHOOL - TIME LINE

TIME | EVENT DESCRIPTION
0 | BC requests Jefco's assistance in setting up a Command Post, due to the difficulty of situation.
11:41 | Littleton R11 transports one patient from Fair and Pierce to a Columbine Ambulance at Jay and Bowies. Stephanie Munson.
11:41 | From Dispatch: Jefco notifies units that one shooter has been located in the cafeteria on the lower level, South side, with a hand gun and bombs, and there may be a second shooter.
11:42 | Move ups initiated by Dispatch, S16 to Station11. C10 requesting callout of all staff.
11:44 | C11 on scene. Jefco setting up the Command Post at Fair and Pierce.
11:46 | C1,BU11 and an off duty Captain responding from admin.
11:47 | T10 responding from the Training Tower.
11:49 | Per C1 requesting that an off duty BC to report for duty to recall crews.
11:49 | Sprinkler system is activated by a device in the cafeteria. The system extinguishes the fire.
11:51 | Columbine Ambulance transports one patient with a lower leg wound to Littleton Hospital. Stephanie Munson.
11:51 | South Metro R37 moving to Littleton Station 12.
2 | C10 requests notification of the City Manager.
11:53 | Call back of dispatcher.
11:54 | R11 and R13 respond to the Southwest of the school, for a report of several students down. Area reported as secured by PD in the area. E13 responding to assist. BC1 was informed that Law Enforcement had set up a Command Post at Leewood and Pierce.
11:54 | As R11 and R13 enter the parking lot, they note SWAT team with weapons directed toward the library.
11:55 | C1 on scene. Face to face meeting with BC1. C1 attempting to set up Unified Command with Jefco.
11:56 | BC1 moves the Fire Command Post from Fair and Pierce, approximately 1/4 mile North of the school, to Leewood and Pierce.
11:57 | R11 and R13 informed BC1 that the Southwest area of the school was not secure, they were taking gun fire over their heads. SWAT team is providing cover fire for them. The crews parked the rescues on the sidewalk between the building and the victims. R11 and R13 park their vehicles on the sidewalk, between the building and the victims, and extricate three victims from the area. E13 retreats from the Southwest parking lot and stages at Pierce and Polk streets.
11:57 | Beginning of several calls from a teacher inside the school with information about the suspect and the location of students. Attempts to transfer to Jefco unsuccessful. Reports unable to get out on S11. Teacher advised to stay low to the floor and stay quiet.
11:58 | BC1 orders E11 to let the SWAT team use their engine as a shield to approach the school. The Captain orders his crew to remove all the medical equipment from the rig.

JC-001-007841
EVENT DESCRIPTION

59

Dispatch>Fire department please state your emergency.
Caller>Hi, Jeffco Sheriff with a transfer of an explosion.
Dispatch>Ok.
Caller>Go ahead ma'am.
Caller>Thank you.
Dispatch>Hello?
Dispatch>Hi, don't know if it was an explosion, if it was a car, or what it was but they're on Wadsworth Blvd. NB between Chatfield and Ken Caryl. There was an explosion in the back yard. I don't know if it was a car or a propane tank. A big ball of fire and now there's smoke. There are several people pulled off to the side of the road.
Dispatch>Is that about a mile north of 470?
Caller>Yea.
Dispatch>Ok, we'll get somebody right out.
Caller>Thanks.
Dispatch>Thank you, bye.
Caller>Bye.

Dispatch>Fire department please state your emergency.
Jeffco>It's Jeffco Sheriff here. I've got a student hit in the spine at Columbine.
Dispatch>It's Columbine High?
Jeffco>Mmhm.
Caller>Oh wait, here she comes back again.
Dispatch>Ok.
Caller>We've got another kid that's been shot in the head.
Jeffco>He's shot in the head?
Caller>We've got one kid shot in the head.
Jeffco>Ok, breathe ma'am, you're ok.
Jeffco>How many injuries, how many injuries do we have?
Caller>Black trench coat, shot gun. That's who's shooting. We don't know who it is.
Jeffco>Black trench coat and a shot gun.
Caller>We've got another kid who's been shot in the face, half his face is hanging off.
Jeffco>Ok.
Caller>We've got another one who's been shot who's not breathing.
Jeffco>Ok.
Dispatch>Ok, multiple victims.
Jeffco>One in the spine, one in the head. South Metro.
Dispatch>Ok.
Caller>Cathy?
Caller>[screaming in background]
Caller>They just shot somebody inside the cafeteria.
Caller>I'm going to have to try and get out of here and call you back.
Jeffco>Ok.
Dispatch>Ok, Jeffco, are you still there.
Jeffco>Littleton, we don't know what's going on. Black trench coat, shot gun.
Dispatch>Ok.
Jeffco>You heard as much as we did.
Dispatch>We're standing by at Columbine and Pierce. We've got a second rescue started. We'll be out there.
6 Dispatch>Fire department please state your emergency.
Caller>‘This is Alan Gram at Columbine High School.
Dispatcher>Yes sir.
Caller>And we have someone in the building with a gun and they are shooting.
Dispatcher>Sir, we've got people enroute. Can you give me any information about the victims?
Caller>‘I can not. I'm trying to keep our kids back out of the way.
Dispatcher>OK.
Caller>There are some other teachers who are down there but we can't get to them.
Dispatcher>Where is this in the school?
Caller>‘Ah, tell them the best way to come is... well, where they'll encounter it first is if they come in on the south parking lot.
Dispatcher>‘We won’t enter the building until we've got this secured.
Caller>‘OK. I know. But that's the area where I believe the person is located.
Dispatcher>‘The south parking lot.
Caller>‘The south lower part of the building. It's off the student parking lot.
Dispatcher>‘OK, we're going to be staging at Piersol and Columbine until we get an OK from county to go in. Do you have any idea how many victims you've got?
Caller>‘I have no idea ma'am.
Dispatcher>OK.
Caller>‘I went down one of the halls and one of the teachers yelled at me to call you guys. Make sure that a call went in.
Dispatcher>It's in and we're on our way sir.
Caller>‘OK.
Dispatcher>‘If you get any victim information can you call me back?
Caller>‘Yes I will.

4 8 Dispatch>Fire department please state your emergency.
Caller>‘This is Alan Gram again. I just talked to someone there.
Dispatcher>‘Yes sir, that was me.
Caller>‘OK, uh, the shooter is wearing a black trench coat and so far as I know we have one injury. It's a gut shot. The students name is Anna Marie Holooter.
Dispatcher>‘I was speaking to... just a second...
Caller>‘Now we have not set students out of the building for fear of running into him.
Dispatcher>‘Right. I need to put you on hold for just a moment. I'll be right back with you.

5 12 Dispatch>Sir,
Caller>‘Yes, we just had a major explosion here. We need help immediately please.
Dispatcher>‘We've got people out there sir. We've got to find this guy. Where was the explosion?
Caller>‘It sounded like it was coming from downstairs.
Dispatcher>OK.
Caller>‘In the cafeteria area.
Dispatcher>‘OK.
Caller>‘Apparently there is an ambulance outside.
Dispatcher>‘We've got people all over the place sir. We'll get in as soon as possible sir.
Caller>‘There goes another one.
Dispatcher>‘Thank you sir.
Caller>‘Yeah, all right.
Dispatcher>‘Bye.

F. THE FIRE ALARM CONTROL PANEL AT THE FRONT OF THE LIBRARY ENTRANCE HAS THE FOLLOWING ZONES.
   1. LANGUAGE ARTS AND SOCIAL STUDIES.
   2. BUSINESS SCIENCE ANNEX.
   3. I.M.C. LIBRARY.
   4. MATH/ FOREIGN LANGUAGE
   5. GYM AND TEMPORARY CLASSES ROOMS.
   6. COMMON OFFICES CAFETERIA AND KITCHEN.
   7. TECH. ARTS.
   8. AUTO- SHOP.
Monday, August 28, is the first day of classes. Freshmen should report at 7:15 A.M. for a freshman welcome in the auditorium. All other students should report by 8:00 A.M.

For the first day only, we will have a special schedule, with 30 minute classes and 8 minute passing periods.

7:15 - 7:45 Freshmen report at 7:15 to the auditorium for a welcome.
8:00 Sophomores, juniors, and seniors report. Students may view new school, check lockers & classrooms.

Period 1  8:15 - 8:45
Period 2  8:53 - 9:28
Assembly  9:36 - 10:40 All-school assembly & ribbon-cutting ceremony
Period 3  10:48 - 11:17
Period 4  11:25 - 11:56
Period 5  12:04 - 12:34 A lunch
          12:04 - 12:36 Class
          12:36 - 1:14 Class
          12:44 - 1:14 B lunch
          12:42 - 1:14

Period 6  1:22 - 1:52
Period 7  2:00 - 2:30

1st Semester - 1995-96 bell schedule

Period 1  7:30 - 8:20
Period 2  8:25 - 9:20
Period 3  9:25 - 10:15
Period 4  10:20 - 11:10
Period 5  11:15 - 11:45 A lunch
          11:45 - 12:15 Class
          11:50 - 12:40 Class
          12:10 - 12:40 B lunch
          12:45 - 1:15
Period 6  1:40 - 2:30
Period 7  1:35 - 2:30

If you have these classes 5th period, you will have "A" lunch. Go to lunch first, then class.

Language arts  Social studies  Math

If you have these classes 5th period, you will have "B" lunch. Go to class first, then lunch.

Foreign language  Art  Business  Tech arts  Music

PE  Science  Life management

Lunch is thirty (30) minutes
Passing periods are five (5) minutes.
Classes are fifty (50) minutes. Period 2 is fifty-five (55) minutes due to announcements.

Thursday schedule:

Period 1  8:15 - 9:00
Period 2  9:05 - 9:50
Period 3  9:55 - 10:40
Period 4  10:45 - 11:30
Period 5  11:30 - 12:00 A lunch
          11:30 - 12:30 Class
          12:05 - 12:50 Class
          12:25 - 12:50 B lunch
          12:55 - 1:40
Period 6  1:45 - 2:30
Period 7  2:35 - 3:20

Memorandum

To: File
CC: Investigation File and Jefferson County Sheriff's Office
From: Rick L. Young
Date: 06/04/99
Re: Fire Alarm Time Log

Attached is a copy of the printout from the fire alarm system at Columbine High School. The log indicates the sequence of events on April 20, 1999 and the subsequent alarm system testing. The original of this log was forwarded to the Jefferson County Sheriff's Office with the following request:

THAT THE LOG AND TIME LINES NOT BE RELEASED TO THE GENERAL PUBLIC OR NEWS MEDIA.

It is my responsibility to honor their request. Please use the information as necessary and appropriate.
