On the morning of Saturday February 23, 2002 met with El Paso County Sheriff's Office detectives at Columbine High School in Littleton, Colorado in order to assist in a partial reconstruction of a shooting incident.

Saviano took 35 MM photographs of the scene to include photographs of the stringing of various possible bullet flight paths. In addition, Saviano calculated measurements of the height of the library building and row of windows in the event that an elevation sketch should become necessary.

Saviano cleared the area at approximately 2:00 PM.
